Subject Matter: If you have an autoimmune disease — Graves,' Hashimoto's, lupus, type 1 diabetes, rheumatoid arthritis, MS, gluten-related disorders, IBS, psoriasis, Addison's and others — your lifespan is likely a decade shorter than someone without disease.

Part of the problem lies in the way conventional medicine "treats" autoimmune disease with a pill, which has failed to achieve meaningful outcomes. In fact, it has created an even greater health crisis, what Dr. Peter Osborne calls "The Prescription Pain Trap." The physical, chemical and emotional pain these conditions create, and our failure to treat them properly, impacts millions around the world — it doesn't have to be this way.

During The Autoimmune Revolution, you'll learn about:

- Lab tests to identify hidden autoimmune diseases
- Triggers of autoimmune pain (and how to deal with them!)
- How to identify the cause of inflammation
- Determine whether parasites are part of your problem
- How to predict autoimmune diseases 30 years early
- Connection between diet and autoimmune disease Foods to help reduce inflammation
- Essential oil options for reducing pain and inflammation And more!

It's time to prevent and reverse autoimmune diseases, so we can break this terrible cycle of pain to achieve greater health, improved happiness and longer life!
