

WE CONSCIOUSNESS: 33 Profound Truths for Inner and Outer Peace **By Karen Noé**

Hay House Author & Renowned Psychic Medium Brings Forth Vital Guidance From Wayne Dyer and The WE Consciousness Guides

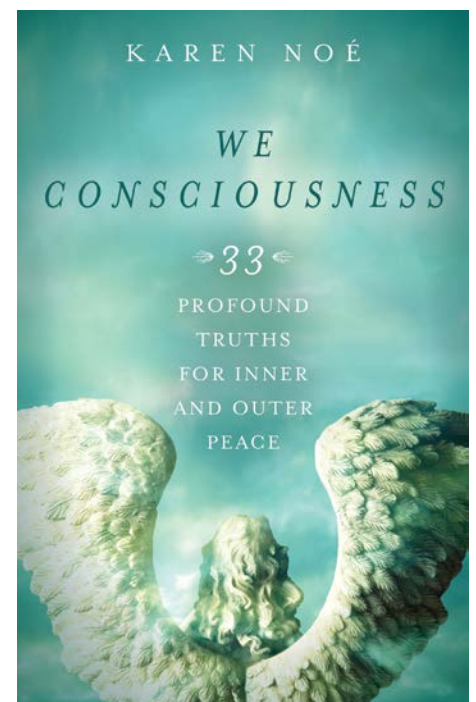

The Dyer Family Medium, Noé Has Brought Incontrovertible Messages From the Luminary to Each of his Family Members, and He Continues To Offer Wisdom to Mankind

Karen Noé, an internationally renowned psychic medium for the past two decades with a two-year client waiting list, was a deep admirer of Dr. Wayne W Dyer, a man whose teachings truly transformed her life. She followed his wisdom to always ask “How May I Serve?” so that she could be a force for peace and love in the world. Like much of the planet, she was profoundly saddened when he left the physical plane on Aug, 30 2015.

A month later, as a Hay House author, she had been booked to talk on life-after-death at Hay’s House’s *I Can Do It Conference* in Orlando FL. She flew in a day early to attend a tribute to Dyer, along with members of his family. As she walked back to her hotel, Karen spoke inwardly to Dyer and asked him to give her a sign if he could hear her. She then asked how *she could serve* him.

The answers came in minutes...not just a direct response telling her she was *already* serving, but also a visual sign that highlighted the letters W...E . Delighted with this contact, she thought initially that the W...E stood for WaynE. But she was soon to discover it meant **WE**.

Dyer had opened the way for her to become a powerful conduit to deliver **WE CONSCIOUSNESS: 33 Profound Truths for Inner and Outer Peace (Hay House, March 2018)**, an extraordinary collaboration with Dyer and a collective known as the WE Guides, including St. Francis of Assisi, bringing forth vital information for all of humanity on how we can achieve heaven on earth today.

The 33 concepts in the book are the keys to experiencing the divinity within us, the one consciousness to which we all are connected. As we live these precepts, we create the inner peace that can translate into external peace in the world. The WE Guides ARE the consciousness that enable us to be instruments of peace if we follow their guidance.

This seminal world-changing book is fascinating and essential for both the messages it brings and for the way it has come to us.

If you are wondering whether it can be verified that the messages are indeed being delivered through the luminary author, speaker and teacher who so changed the lives of millions, you need only ask the Dyer family. Shortly after Karen and Wayne began to communicate, he started offering specific incontrovertible messages to family members through Karen. Today, she is the Dyer family medium and here is what they say:

“Karen Noé has the gift of talking to the angels and to loved ones who have passed, and her messages from our dad are so specific that we knew they could only be coming from him. Karen has given us the greatest gift during the first year of processing our loss; she has given us the knowing that someone who loves you never, ever leaves you.”

Furthermore, the book has one special chapter from Dyer himself, a remarkable dialogue with Karen, answering questions on what it is like once the soul leaves its mortal vessel, what can each of us expect to experience when we transition.

Karen Noé is the founder of the Angel Quest Center in New Jersey, an internationally sought-after medium, spiritual counselor, healer and the author of the bestselling books *Your Life After Their Death: A Medium's Guide to Healing After a Loss* and *Through the Eyes of Another: A Medium's Guide to Creating Heaven on Earth by Encountering Your Life Review Now*.

WE CONSCIOUSNESS: 33 Profound Truths for Inner and Outer Peace, \$16.99, is available at bookstores nationwide, and on Amazon.com and BarnesandNobel.com. It is also available on Kindle for \$13.49.

"I had the great pleasure of meeting Karen Noé several years back, and I instantly liked her. What struck me about her was how incredibly humble and genuine she is—despite the fact that her ability to communicate with the world of spirit is up there with the best! In this new book, *We Consciousness*, Karen takes this to an even higher level by not only bringing through the messages of Wayne Dyer, but also channeling the 33 most important truths that he, St. Francis, and a litany of other wonderful guides and angels bring forth! In my work with the Angel Margaret, she has often spoken of the fact that we are all one and that we share the same consciousness; the more we come to understand the truths of that connection, the greater the chance we have to create heaven on Earth. This book may well be the first step on that wonderful journey!" — **Gerry Gavin, author of *Messages from Margaret and If You Could Talk to an Angel***

“As this beautiful book expertly illustrates, in order to experience peace and love within, we have to express it without. Love is the essence of the soul. This is part of the reason why I felt so instantly drawn to Karen Noé. Karen doesn’t just talk about the importance of being an instrument of peace in this world; she is that peace. She doesn’t just talk about the importance of giving and expressing love for others; she is that love. True, Karen is a gifted psychic medium, but more importantly, she is a caring, kind, loving person who truly wants to help others. She is a blessing beyond words to me and so many. As you read *We Consciousness* and the 33 profound truths brought through by the late Wayne Dyer and others in the celestial realm, prepare to be inspired and transformed.” — **Josie Varga, author of *Visits from Heaven, Divine Visits, and A Call from Heaven: Personal Accounts of Deathbed Visits, Angelic Visions, and Crossings to the Other Side***

WE CONSCIOUSNESS

Karen Noé Biography

Karen Noé is a renowned New Jersey-based psychic medium, spiritual counselor, and healer with a two-year waiting list. She is the author of ***We Consciousness: 33 Profound Truths for Inner and Outer Peace***, *Your Life After Their Death: A Medium's Guide to Healing After a Loss*, and *Through the Eyes of Another: A Medium's Guide to Creating Heaven on Earth by Encountering your Life Review Now*.

A number of significant events throughout Karen's life have led Karen to write ***We Consciousness: 33 Profound Truths for Inner and Outer Peace***. When Karen was a child, her psychic abilities manifested in multiple ways. She dreamed about things before they occurred, felt others' emotions as if they were her own, picked the "winning numbers" for her family, and so much more.

Then, about 25 years ago, when she was not feeling emotionally or physically well, she sat at the edge of her bed and asked God if she was going to be okay. With that simple request, a huge glowing light began to come toward her from the other side of the bedroom. She was stunned and inwardly shouted, "If you are not of God, please leave!" Even after that request, the light continued to move toward her, and eventually enveloped her with a sense of complete, unconditional love. All the negativity that had been within her dissolved in an instant, and she experienced an inner peace that words cannot even begin to describe. Then she heard an audible voice say, "Luce, lucina, bella luce lucina ." Since her grandparents were Italian, she knew what that meant—light, little light, beautiful little light. She began to weep and just knew that everything would be okay. (And it was!)

Through meditation and dreams, she has since learned that the beautiful light was Saint Francis of Assisi. She had always felt a strong connection to him, and now she was able to feel and hear him speak directly to her. Shortly after the experience with the light, she also began receiving profound messages from the angels and significant messages from deceased loved ones as well. She eventually gave in and followed her intuitive guidance to relay these messages to others. These were what she calls "without a doubt" messages, with evidence that only the deceased and their living loved ones would know.

The rest is history. Word spread, and she eventually was booked several months—then years —ahead of time. She's been doing this for over 20 years now, and loves seeing how much her abilities have helped people know that the angels and their deceased loved ones are truly with them.

Then, after bestselling author, Dr. Wayne Dyer left the physical plane in 2015, Karen began receiving very profound and specific messages from him for his family and for the world as well. While Wayne comes through singularly for his family, he also comes through together with a group of other celestial beings called the *We Guides* that include Saint Francis of Assisi and a countless number of angels and ascended masters.
